<i>Cultural</i>	Lachlan Linsket	Yasmine Dargin
<i>Arts</i>	Jermaine Davis	Harmony Keed
<i>Encouragement</i>	Kalais Buerckner	Anakiyah Dargin-Clark
<i>Leadership</i>	Walter Smith	Keiriana Dargin-Clark
<i>Overall Achievement</i>	Jeremiah Hudson	Kiara Harris

Emergency Contacts

There have been a number of occasions in the past few weeks where we have not been able to contact parents or emergency contacts. To ensure that we have the correct emergency contact details, please let the school know as soon as possible when you change address, your phone number, and contact details for emergency contacts.

Assembly

Parents and carers are invited to attend the formal assembly this Friday in the hall starting at 1.00 pm. The students in 2T will be performing.

District Athletics Representatives

Students representing our school at the Lachlan District Athletics Carnival in Parkes on Friday, 31 July need to have returned notes by this Friday. It is the responsibility of parents to organise transport for their children.

Kindergarten Information Session

Parents and carers of students starting Kindergarten in 2016 are invited to attend our parent information session in the school hall, followed by a visit to the Kindergarten classrooms next Tuesday, 28 July at 10.00 am.

Common Childhood Illnesses

In the past couple of months there have been a number of students presenting with a range of common childhood illnesses. To help parents understand some of these illnesses, requirements relating to treatment and any exclusions, we have provided some information below:

Conjunctivitis

Time from exposure to illness: 1 to 3 days.

Symptoms: The eye feels scratchy, is red and may water. Lids may stick together on waking.

Students should remain home while there is discharge from the eye.

Conjunctivitis is very contagious. Use Standard Precautions and Infection Control Procedures.

Gastroenteritis

Time from exposure to illness: Depends on the cause, several hours to several days.

Symptoms: A combination of frequent, loose or watery stools, vomiting, fever, stomach cramps, headaches

Students should be kept home at least for 24 hours after diarrhoea ceases.

Apply Standard Precautions: Careful hand washing with soap and water after using the toilet or handling nappies and before touching food.

Hand, foot and mouth disease

Time from exposure to illness: 3 to 7 days.

Symptoms: Mild illness, perhaps with a fever, blisters around the mouth, on the hands and feet, and potentially the nappy area.

Students need to remain at home until the blisters have dried.

Standard Precautions and Infection Control Procedures will prevent spread of infections.

Head lice

Time from infestation to eggs hatching; Usually 5 to 7 days.

Symptoms: Itchy scalp, white specks stuck near the base of the hairs, lice may be found on the scalp.

Students can attend school as long as head lice management is ongoing.

To manage spread of disease, family, friends and classroom contacts should be examined and managed if infested.

Impetigo (school sores)

Time from exposure to illness: 1 to 3 days.

Symptoms: Small red spots change into blisters that fill with pus and become crusted; usually on the face, hands or scalp.

Students need to remain at home until treatment starts. Sores should be covered with a watertight dressing.

Infection control procedures should be adhered to.

Influenza

Time from exposure to illness: 1 to 3 days.

Symptoms: Sudden onset fever, runny nose, sore throat, coughs, muscle and headaches.

Students should remain home until feeling better.

Immunisation is recommended for the elderly and people with chronic illnesses.
